

## ADLER Allwetterlack

## 50020 ff

### Product description

Colourless synthetic resin varnish for use on wood in exterior and interior applications. Marine quality.

### Specific properties

Low odour, quick drying; very good resistance to cream and grease.

**Please note: has yellowish shade**

### Fields of application

Interior and exterior use on wood, such as garden furniture, beer tables and doors. Also for varnishing of synthetic resin varnishes and water-thinnable coloured paints in order to avoid abrasion of colour.

### Application

Brush, roller, spray

**Spraying is only allowed in spraying booths complying with the VOC directive.**

### Surface preparation

Wood: sand with grit 120. First impregnate exterior wood surfaces with Pullex Imprägnier-Grund 50208 ff. Before overcoating sand fully dried paint with grit 220.

### Topcoat

Apply 2 coats of ADLER Allwetterlack 50020 ff.

### Thinning

ADLER Allwetterlack 50020 ff can be applied by brush without thinning. Add up to 5% ADLER Adlerol 80301 for roller application and thin with 20% ADLER KH-Spritzverdünnung 80367 for spray application.

### Application and object temperature

Above + 5 °C

### Drying time (room temperature 20 °C)

Dust dry after ca. 2 hours

Tack free after 4 hours

Can be overpainted after ca. 12 hours

Drying times are longer for thick coatings and/or low temperatures and/or high humidity.

### Tools

Clean with ADLER Adlerol 80301.

### Coverage (per coat)

Ca. 10 m<sup>2</sup>/l and per coat

11-09 (replaces 01-07)

**Colours**

Colourless gloss 50020  
Colourless matt 50023

**Special instructions**

Colourless coatings on exterior surfaces require more frequent maintenance and care. Any damage should be repaired as quickly as possible to prevent discolouration.

**Safety information**

Please consult Safety Data Sheet!

There is a risk that cloths may self-ignite when impregnated with substances creating oxidative reactions when dry! Impregnated cloths should be spread out for drying and stored in closed metal containers or in water.

The product must not be used in spray booths contaminated with nitrocellulose spray residues, due to the risk of self-ignition!
