

## ADLER Pflegeset Plus (care set)

**51695**

### Product description

Care set for transparent coated wooden windows and garden furniture; contains the products cleaning cloth 96210, ADLER Top-Cleaner 51696, ADLER Top-Finish 51697 and ADLER Fenster-Tool applicator pad 95581.

### Special information

#### **ADLER Top-Cleaner 51696**

Removes easily dirtiness. Very good degreasing property;.

#### **ADLER Top-Finish 51697**

Closes micro-fine cracks and pores of the varnish film, prolongs the renovation intervals.

Gives the surface a new satin gloss; the surface can be recoated without problems.

### Fields of application

For transparent coated windows and garden furniture.

We recommend that you use the ADLER Pflegeset Plus 51695 once a year. It is not necessary for wooden windows that are protected against weathering as a result of the manner in which they have been installed.

### Application

#### **ADLER Top-Cleaner 51696**

Remove from the surface dirt and soiling with warm water and some drops washing-up liquid. Afterwards apply on the coated wooden elements with the cleaning cloth 96210 ADLER-Top Cleaner 51696 or ADLER Fenster-Tool 95581.

#### **ADLER Top-Finish 51697**

Shake well before using and apply a thin coat with the cleaning cloth 96210 or with ADLER Fenster-Tool 95581 on the surfaces which are dry and pre-treated with ADLER Top-Cleaner 51697. When using only the Fenster-Tool, the quantity applied is in excess, which is why it is necessary to wipe it subsequently with the cleaning cloth 96210!

### Drying time

(ambient temperature 20 °C)

ADLER Top-Finish 51697 about 1 hour

### Working and object temperatures

Not below + 10° C

High atmospheric humidity and/or low temperatures retard drying time considerably.

### Work equipment

Wash out the cloth 96210 with warm water and soap.

### Yield value (per coat)

Approx. 10 m<sup>2</sup> per litre

### Storage

Frost-free
